Penleigh and Essendon Grammar School

Policy for a Child Safe School

Interactions with students

Penleigh and Essendon Grammar School is committed to supporting a culture of safety, trust and respect. The school encourages an environment in which relationships with students are responsive and respectful, the diversity of students’ backgrounds and personal needs are recognised and in which students’ resilience, sense of security and belonging are promoted.

All staff, volunteers and others interacting with children are encouraged to interact positively, using positive language, and acknowledge and model respectful behaviour following the Code of Conduct for staff, volunteers and others interacting with children and Statement of Our Behaviour.

The school is committed to the development and maintenance of respectful and equitable relationships with each student. Interactions with each student are to be warm and responsive and build trusting relationships. Every student can engage with educators in meaningful, open interactions that support the acquisition of skills for life and learning. Each student is supported to feel secure, confident and included. (Refer to the National Quality Standard 5.1: Relationships with students published by the Australian Students’ Education & Care Quality Authority, October 2011.)

Moreover, the school encourages an environment in which each student is supported to build and maintain sensitive and responsive relationships with other students and adults. Each student is supported to work with, learn from and help others through collaborative learning opportunities. Each student is supported to manage his/her own behaviour, respond appropriately to the behaviour of others and communicate effectively to resolve conflicts. The dignity and rights of every student are maintained at all times. (Refer to the National Quality Standard 5.2: Relationships with students published by the Australian Students’ Education & Care Quality Authority, October 2011.)

The purpose of this policy is to protect students from physical, sexual or psychological abuse at school and to set up safe systems to support this commitment.

This policy relates to all students at the school from Kindergarten through Year 12 and refers to professional conduct of all staff; measures for the employment and supervision of school staff in all child-connected work together with procedures for responding to and reporting allegations of suspected child abuse; identifying and reducing or removing risks of child abuse; supporting staff, parents and students to understand, identify and report child safety matters related to the school environment; and actions to foster child empowerment and participation in the promotion of child safety within the school environment.

The policy is formulated with reference to Ministerial Order No 870 - Child Safety Standards- Managing the risk of child abuse in schools and the reportable conduct scheme administered by the Commission for Children and Young People, Victoria.
(CCYP). It should be read in conjunction with the Policy for Protection of Children which addresses mandated reporting by teachers and certain other professionals of suspected cases of physical and sexual abuse or failure to protect a student from harm of that type as well as community obligations to disclose, or protect a student from, sexual abuse or sexual grooming activities. Attention is also drawn to the school’s Code of Conduct for staff, volunteers and others interacting with children to which all staff are required to adhere.

Our Privacy Policy sets out the manner in which we collect, use, disclose and manage personal information and should be consulted with reference to the requirements as set out below.

Professional conduct

Penleigh and Essendon Grammar School encourages relationships between staff and students that are supportive and caring and actively encourage learning. A clear understanding by students that staff members are professionals is fostered and whilst staff members can be interested, kind and friendly, they should not be, nor act like, friends or equals of any student.

Staff members are required to be respectful of cultural, linguistic and personal differences and to remain alert to the possibility that psychological and emotional harm, with the added potential for child abuse, may be the unintentional consequence of a failure to consider such differences.

The school acknowledges the complexities and variations in relationships and behaviours staff members may have with students from Kindergarten to Year 12. In general terms, physical contact between staff members and students is discouraged and ‘hands off’ practices are recommended. In particular, corporal punishment is forbidden and physical contact with students must not be made to punish or discipline.

When interacting with secondary age students, school staff should not have physical contact with the students in their care unless deemed necessary when demonstrating sport, musical, dance or drama postures, or for the provision of medical care such as First Aid. When interacting with primary age students, a staff member might need to give greater physical assistance and support and it is understood that it may be necessary to interact physically to support young students. All interaction must be positive and respectful.

Significant physical contact may be required when supporting a student with special needs. In these situations, the support should always concur with strategies agreed in consultation with the student and his/her parents and follow plans documented in the student’s Individual Care Plan.

Staff selection, supervision and management practices

Each job listing which involves student-related work will have a clear statement that sets out the job requirement, responsibilities and duties regarding student safety, and includes essential or relevant qualifications, experience and attributes in relation to student safety. This includes the requirement for compulsory adherence to the Code of Conduct for staff and others who interact with children.

In accordance with statutory requirements, the school will where possible gather, verify and record the following for staff it proposes to engage to perform child-connected work:

- Working with Children Check status;
- Proof of personal identity and any professional or other qualifications;
- Person’s history of work involving children;
- References that address the person’s suitability for the job and for working with children.

The school will provide suitable supervision and support to new staff and induction into the school’s policies, codes and practices related to protection of children. It will ensure that these policies are available for staff reference, ie on PEGSpace, and updated at regular and assigned intervals.

All staff members will be required to sign the Code of Conduct for staff and others working with children when commencing employment at the school and training to ensure that understanding of their obligations and responsibilities will occur annually. Staff members’ suitability to continue in a child-connected role will be monitored as a compulsory component of staff management in the annual performance review.

**Responding to and reporting allegations of suspected child abuse**

The school is committed to upholding its responsibility to reduce or remove any substantial risk that a child will become a victim of abuse committed by an adult associated with the school. Any member of staff or other person who interacts with students at Penleigh and Essendon Grammar School forming a reasonable belief that a child has been abused or is at risk of abuse should notify the Head of Section, Vice Principal or Principal as soon as is reasonably practicable, preferably within one day.

A reasonable belief that a child has been abused or is at risk of abuse is likely formed in circumstances where:

- a child discloses that he or she has suffered or is suffering non-accidental physical injury, sexual abuse, psychological or emotional abuse or is victim of a sexual grooming activity;
- a relative, friend or acquaintance states that a child has been non-accidentally injured, sexually abused, psychologically or emotionally abused or is victim of a sexual grooming activity;
- professional observations of the child’s physical condition or behaviour lead to a reasonable suspicion that the child has suffered non-accidental physical injury, sexual abuse, psychological or emotional abuse or is victim of a sexual grooming activity.

If a staff member suspects that a child is in need of protection within the school environment he/she should document his/her concerns and observations in a confidential file for discussion with the Head of Section, Vice Principal or Principal. The Head of Section, Vice Principal or Principal will act in accordance to the Policy for the Protection of Children.

The staff member should not discuss this information with staff members other than the Head of Section, Vice Principal, Principal during the period of investigation.

The Principal will respond to any allegation of reportable conduct involving a
worker or volunteer, by informing the CCYP and referral to the Victorian Police will also occur where this is appropriate. An investigation of the allegation will occur and at the conclusion of the investigation the findings with reasons for the outcome will be reported to the CCYP.

When the Principal is aware that substantial risk of abuse to a child in the school from an adult associated with the school exists, he/she will act to reduce or remove the risk. The person will be removed from any child-related role pending an investigation. Records of the allegation together with the school’s response will be retained by the school.

A staff member who makes an allegation is free to report the allegation of child abuse to the appropriate government authorities regardless of the conclusion reached following an investigation conducted by school authorities.

**Strategies to be taken to reduce the risk of child abuse and promote child empowerment**

Penleigh and Essendon Grammar School promotes a caring, respectful and inclusive culture based on its Policy of Mutual Respect and Statement of Our Behaviour.

In recognition of the potential for abusive situations, the Heads of Section will employ risk management strategies in monitoring the school environment and activities in which a staff member is alone with children. This may include consideration of the potential for abuse associated with circumstances of the physical environment, including risk related to the layout of school buildings and grounds; the appropriate use of the electronic environment, including social networks, and the potential for risk during co-curricular activities. Guidelines for appropriate communication between staff and students using electronic media are also published elsewhere.

The school will also protect children from potential abuse by requiring that a valid Working with Children Check (WCC) is provided for all staff employed by an external agency but working on school property on a regular basis or for an extended period, as well as personnel involved in student-related activities during an excursion, study tour, student exchange placement or other activity organized by the school. Where it is necessary for short-term work to be carried out on school property by a worker not holding a valid WCC, he or she will be accompanied by a suitable registered supervisor while on school property.

In consultation with Heads of Section the Principal will ensure that appropriate guidance will be provided to school staff at least annually about:

- individual and collective obligations and responsibilities for managing the risk of child abuse, including risks related to the actions of students of or over 18 years in communication with students of less than 16 years;

- child abuse risks in the school environment;

- the school’s current child safety standards and Code of Conduct for staff, volunteers and others interacting with children to which all staff, contractors and volunteers must adhere.

Appropriate measures will be employed by the Principal to monitor and evaluate the effectiveness of the risk controls employed by the school. Information concerning child safety standards will be provided to students in a readily accessible,
appropriate and user-friendly form.

DEFINITIONS

1. **school staff** means:

   in a non-Government school, an individual working in a school environment who is:

   (i) directly engaged or employed by a school governing authority;

   (ii) a volunteer or a contracted service provider (whether or not a body corporate or any other person is an intermediary); or

   (iii) a minister of religion.

2. **child** means a child enrolled as a student at the school

3. **child-connected work** means work authorised by the school governing authority and performed by an adult in a school environment while children are present or reasonably expected to be present

4. **child abuse** includes:

   (a) any act committed against a child involving:

      (i) a sexual offence; or

      (ii) an offence under section 498(2) of the *Crimes Act 1958* (grooming); and

   (b) the infliction, on a child, of:

      (i) physical violence; or

      (ii) serious emotional or psychological harm; and

   (c) serious neglect of a child.

5. **school environment** means any physical or virtual place made available or authorised by the school governing authority for use by a child during or outside school hours, including:

   (a) a campus of the school;

   (b) online school environments (including email and intranet systems); and

   (c) other locations provided by the school for a child’s use (including, without limitation, locations used for school camps, sporting events, excursions, competitions, study tours and other events).
